ABOUT Lab2Doctors

Lab2Doctors is here to serve the government as a premier clinical laboratory consulting company that ensures quality in the preanalytical phase of testing, which links clinical diagnostic laboratories to Clinician's. As a small minority owned business, we have had the privilege of gaining extensive years of working experience at all the different types of clinical diagnostic laboratories and pride ourselves in gaining first-hand experience spanning in all the phases of testing in a clinical laboratory, from sample collection and prep, testing and leading up to lab results interpretation, consult and recommendation.

We self-perform and team with partners to provide the most cost-effective solution to meet the needs of the government, industrial, education, healthcare, and pharmaceutical communities. Let us be your solutions

CORE COMPETENCIES

Lab-2-Doctors provides services to Clinicians who consult with the elderly or patients with chronic diseases following its mission of ensuring total confidence in the quality of lab results received to facilitate patient care, disease management and avoid misdiagnosis or delayed diagnosis, by
